

TYPE APPROVAL CERTIFICATE

This is to certify:

That the Network and Communication Components

with type designation(s)
ProfiHub B5+

Issued to
Procentec B.V.
Wateringen, Zuid-Holland, Netherlands

is found to comply with
DNV GL rules for classification – Ships, offshore units, and high speed and light craft

Application :

Product(s) approved by this certificate is/are accepted for installation on all vessels classed by DNV GL.

Location classes:

Temperature	D
Humidity	B
Vibration	A
EMC	B
Enclosure	A

Issued at **Høvik** on **2019-03-20**

for **DNV GL**

This Certificate is valid until **2023-06-30**.

DNV GL local station: **Rotterdam, Product Certification /Verification**

Approval Engineer: **Ståle Sneen**

.....
Trond Sjøvåg
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Job Id: **262.1-013420-2**
Certificate No: **TAA000028B**

Product description

The ProfiHub B5+ is a network component for PROFIBUS DP installations, to implement long multi-device spur lines and backbone structures with star/tree segments.
The ProfiHub B5+ refreshes a received message on one channel and transfers it to all the other channels.
More details can be found in Procentec User Manual ProfiHub B5+R and B5+RD Ver.3.1.1.

Approval conditions

The Type Approval covers hardware listed under Product description. When the hardware is used in applications to be classed by DNV GL, documentation for the actual application is to be submitted for approval by the manufacturer of the application system in each case. Reference is made to DNV GL rules for classification of ships Pt.4 Ch.9 Control and monitoring systems.

Product certificate

If specified in the Rules, ref. Pt.4 Ch.9 Sec.1, the control and monitoring system in which the above listed hardware is used shall be delivered with a product certificate. For each such delivery the certification test is to be performed at the manufacturer of the application system before the system is shipped to the yard. The test shall be done according to an approved test program. After certification the clause for software control will be put into force.

Software control

All changes in software are to be recorded as long as the system is in use on board. Documentation of major changes is to be forwarded to DNV GL for evaluation and approval before implemented on board. Certification of modified functionality may be required for the particular vessel.

Type Approval documentation

Manuals and drawings:

- ProfiHub B5+R and B5+RD User Manual, Ver. 3.1.1, dated 2017-11-22

Test reports:

- DEKRA Test report No. 2164967.0502-EMC, dated 2013-09-19

Type approval renewal assessment report for A-13659, DNV GL Rotterdam 2019-02-27

Tests carried out

Applicable tests according to Standard for Certification No. 2.4, April 2006.

Marking of product

Brand name: Procentec
Model name and part number: ProfiHub B5+
Serial number: Unique for each delivered item

Job Id: **262.1-013420-2**
Certificate No: **TAA000028B**

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials.

The main elements of the assessment are:

- Ensure that type approved documentation is available
- Inspection of factory samples, selected at random from the production line (where practicable)
- Review of production and inspection routines, including test records from product sample tests and control routines
- Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
- Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
- Ensuring traceability between manufacturer's product type marking and the type approval certificate

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
